GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 16th February 1917, and is hereby promulgated for general information :—

ACT NO. II OF 1917.

An Act to provide for the imposition and levy of certain duties on motor spirit.

WHEREAS it is expedient to impose an excise duty and to increase the existing customs duty on motor spirit; It is hereby enacted as follows :—

Short title, extent and duration.

1. (*1*) This Act may be called the Motor Spirit (Duties) Act, 1917.

(*2*) It extends to the whole of British India; and

(*3*) It shall remain in force during the continuance of the present war, and for a period of six months thereafter.

Definitions.

2. "Manufactory" means any place where motor spirit is refined or otherwise prepared.

"Motor spirit" means any inflammable hydro-carbon (including any mixture of hydro-carbons or any liquid containing hydro-carbon) which is capable of being used for providing reasonably efficient motive power for any form of motor vehicle.

Imposition of excise duty on motor spirit manufactured in British India.

3. (*1*) There shall be levied and collected at every manufactory in British India on all motor spirit produced in such manufactory, a duty at the rate of six annas on each imperial gallon.

Explanation.—Motor spirit is said to be produced within the meaning of this section when it is issued out of the premises of the manufactory.

(*2*) If any duty payable under sub-section (*1*) is not paid within the time fixed by a notice issued in accordance with any rules made under this Act, the authority to which such duty is payable may, in lieu thereof, recover any sum not exceeding double the amount of the duty so unpaid, which such authority may in its discretion think it reasonable to require.

(*3*) All sums recoverable under sub section (*1*) shall be recovered in the manner prescribed in the Indian Income-Tax Act, 1886, section 30, sub-sections (*1*), (*2*) and (*3*), with respect to the sums therein referred to. II of 1886.

4. (*1*) After the commencement of this Act, no person shall issue any motor spirit out of the premises of any manufactory except in accordance with the provisions of rules made under this Act in that behalf, or, until such rules are made, in accordance with the general or special orders of the Local Government.

Issue of motor spirit after commencement of Act.

(*2*) Whoever contravenes the provisions of sub-section (*1*), shall be punishable with fine which may extend to rupees one thousand or to a sum double the amount of the duty payable on any motor spirit so issued, whichever is greater.

5. The Governor General in Council may, by notification in the Gazette of India, declare that any of the provisions of the Sea Customs Act, 1878, relating to the levy of and exemption from, custom duties, drawback of duty, warehousing, offences and penalties, confiscation, and the procedure relating to offences and appeals shall, with such modifications and alterations as he may consider necessary or desirable to adapt them to the circumstances, be applicable in regard to like matters in respect of the duty on motor spirit imposed by section 3 and may further, for the purpose of providing for the assessment and collection of the said duty and for purposes ancillary thereto make rules—

APPENDIX.

NOTICES TO MARINERS.

THE following Notices are published for general information.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 19th February 1917.*

BRITISH POSSESSIONS.

Caution when Approaching British Ports.

No. 51 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1917), are republished :—

PART I.

CLOSING OF PORTS.

Former Notice.—No 645 of 1916 (*This office No. 233 of 1916*) hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports or the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, referred to in Part III of this Notice, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) **If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.**

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination vessel or signal station.

(3) At all the ports or localities at home or abroad referred to in Part III of this Notice, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

EXAMINATION SERVICE.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad, referred to in Part III of this Notice.

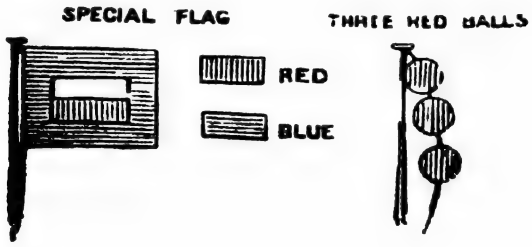
(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the Port. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In entering by night any of the ports mentioned in Part III, serious delay and risk will be avoided if four efficient all round lamps, two *red* and two *white*, are kept available for use.

(7) **By day** the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.



By night the steamer will carry :—

(*a*) Three *red* vertical lights if the port is closed.

(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the distinguishing signal of their vessel ready to hoist immediately the Examination Steamer makes the signal.

(9) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer.

Whilst at anchor in the Examination Anchorage, Masters are warned that they must not lower any boats (except to avoid accident), communicate with the shore, work cables, move their ship, or allow anyone to leave the ship, without permission from the Examination Steamer.

(10) In case of fog, Masters are enjoined to use the utmost care, and the Port should be approached with caution.

(11) Merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night; the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART IV.

SWEEPING OPERATIONS.

Notice is hereby given that under the Defence of the Realm (Consolidation) Regulations, 1914, the following regulations have been made by the Lords Commissioners of the Admiralty, and are now in force.

H. M. Vessels are constantly engaged in sweeping operations off the coasts of the United Kingdom.

Whilst so engaged, they work in pairs connected by a wire hawser, and are consequently hampered to a very considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which these vessels are engaged, they will show the following signals :—

A black ball at the foremast head and a similar ball at the yardarm, or where it can best be seen, on that side on which it is dangerous for vessels to pass.

For the public safety, all other vessels, whether steamers or sailing craft, must keep out of the way of vessels flying this signal, and should especially remember that it is dangerous to *pass between* the vessels of a pair, as the vessels may have mines trailing in their sweeps and also on account of the danger caused to traffic if mine sweepers have to slip their sweeps to get out of the way of vessels.

CAUTION.

Part IV of this Admiralty Notice to Mariners is issued under the provisions of the Defence of the Realm (Consolidation) Regulations, 1914, and failure to comply strictly with the directions contained in it will constitute an offence against those Regulations.

Any person found guilty of such an offence is liable to severe penalties both of imprisonment and fine.

Any person aiding or abetting the commission of such an offence is himself guilty of an offence against the Regulations.

Attention is also drawn to the fact that any infringement of the directions contained in Part IV of this Admiralty Notice to Mariners is liable to result in the detention of the ship or vessel.

DEPARTMENT OF STATISTICS, INDIA.

CALCUTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade of the Calcutta Block* in certain selected articles during the months of April to December 1916 by all routes, *i.e.*, by rail, river, canal, road and sea. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the District Magistrates of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

* Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.

General Summary.

Imports.—The imports of rice including paddy† into Calcutta by rail, river, canal, road and sea (coastwise) during April to December 1916, amounted to 12,153,000 maunds as against 16,507,000 maunds in the corresponding period of the preceding year—a decline of 26 per cent. There was a slight decrease in the imports of coal and coke (81,810,000 maunds as against 81,958,000 maunds last year). The imports by rail and river of Indian cotton piece-goods showed a considerable improvement, the total value amounted to Rs. 2,97,72,000 as against Rs. 1,53,06,000 in 1915. The quantity of indigo imported during the nine months ending December 1916, rose by 137 per cent. (28,000 maunds as against 12,000 maunds last year) owing to larger supplies having been received mainly from the United Provinces and Bihar and Orissa. F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

PART I.—DEFINITIONS.

1. In these regulations—

(1) "Health Officer" means any person appointed by Government, either by name or by virtue of his office, to be Health Officer of a port, and includes an Additional or Assistant Port Health Officer and, any officer appointed by Government, either by name or by virtue of his office, to perform any of the duties of a Health Officer of a port;

(2) (*a*) Except as provided in clause 1 (3) "healthy vessel" means a vessel which, even though coming from an infected port, has not had on board any death from, or any person suffering from, any of the diseases enumerated in the preamble either at the time of departure, or during the voyage from the last port of call, or on arrival;

(*b*) "infected vessel" means a vessel which has on board one or more cases of any of the diseases enumerated in the preamble, or on board of which a case of any of those diseases has occurred either during the voyage from the last port of call or in the event of such voyage exceeding 12 days, within the 12 days or (in the case of plague **and cholera** seven days) immediately preceding her arrival at a port in British India;

(*c*) "suspected vessel" means a vessel on board of which there has been a case of any of the diseases enumerated in the preamble, at the time of departure or during the voyage from the last port of call, but on board of which no fresh case of such disease has occurred within the twelve days or (in the case of plague **and cholera** seven days) immediately preceding her arrival;

(3) (*a*) Every vessel which has come from the east coast of Africa within the limits of Port Sudan and Durban or from any other locality declared to be infected with sleeping sickness or jigger is a "suspected vessel" for the purposes of these regulations, unless during the voyage there has been one or more cases or suspected cases of either of these diseases on board, when it will be considered an "infected vessel;"

(*b*) Every vessel which has within a period of two months immediately preceding her arrival started from, or touched *en route* at, a port infected with yellow fever or communicated (except orally without contact or by signal) with a vessel either infected or which has left an infected port within that period is a "suspected vessel" for the purposes of these regulations, unless

within the same period there has been on board a case or suspected case of yellow fever, when it will be considered an "infected vessel;"

(4) The term "infected," when used with reference to any articles, **includes all articles considered by the Health Officer to be infected with any of the diseases in question."**

(5) The term "infected port" means any port which Government may, by notification, declare to be infected;

(6) "Master," when used with reference to a vessel, means any person (except a pilot or harbour master) having for the time being charge or control of the vessel:

(7) "Port Officer" includes any person acting under the authority of Government in charge of port discipline;

(8) "Medical Officer" (of a vessel) means any person holding medical charge of a vessel who is in possession of a certificate or diploma in medicine and surgery of a recognised university or medical school and registered in the country in which he obtained it.

PART II.—VESSELS ARRIVING AT PORTS IN THE PRESIDENCY OF BENGAL.

2. The master of every suspected or infected vessel arriving at any port subject to these rules shall hoist a signal which, **unless it is otherwise provided for in the Signal Code for the Bengal Pilot Service,** shall be—

by day the Code Flag over Flag L of the Commercial Code, which is a square flag of yellow and black borne quarterly, and

by night three lights, at a height of not less than 20 feet above the hull of the ship, which shall be arranged at a distance of not less than six feet apart in the form of an equilateral triangle, and of which the light at the apex of the triangle shall be white and the lights at the ends of the base shall be red,

and shall report every such case or death that may have occurred from any of the causes enumerated above, or in the case of a vessel not carrying a medical officer any death from any cause, to the pilot or other boarding officer at the earliest opportunity, and shall also comply, on arrival at such place as may be appointed in this behalf by Government, with such regulations as may be made by Government in regard to—

(*i*) signalling the name of the port from which the vessel has come,
(*ii*) stopping at a particular place,
(*iii*) refraining from communication with the shore, and
(*iv*) taking measures for giving effect to the present regulations.

3. If the vessel be at anchor within port limits when such disease first breaks out or such death occurs, the master shall hoist the signals specified in Regulation 2.

4. The pilot or other boarding officer shall promptly report the circumstances of the case to the Port Officer, who shall immediately forward any report so made or give notice of any signal hoisted to the Port Health Officer.

5. (1) When any healthy vessel **except as otherwise provided in clause (3)** is within sight of a port in British India, the master shall intimate the fact by signal.

(2) Such intimation shall ordinarily be accepted by the Port Officer; and if so accepted, the Health Officer need not visit the vessel, which may be considered to have pratique.

(3) The master of a healthy vessel on which unusual mortality among rats has been observed shall hoist the signals specified in Regulation 2.

PART III.—BERTHING OF VESSELS.

6. (*a*) If the number of deaths from or cases o the diseases enumerated in the preamble, with the exception of plague and yellow fever, does not exceed two, the vessel will not be prohibited from taking up the usual place of anchorage in the harbour or port, except that she may not enter the docks

without the written permission of the Health Officer, and the passengers and crew not suspected of having any of the diseases in question need not, except in the case of pilgrim and emigrant ships and those not carrying a medical officer, be detained on board pending the inspection of the Health Officer. The master of the vessel shall be responsible that no one of the passengers or crew, except those referred to above, is allowed to leave the vessel before inspection by the Health Officer, and shall prevent the landing of infected bedding, clothes, or other personal effects which he has reasonable cause to consider likely to be infected.

(*b*) If the number of cases or deaths within the previous twelve days has exceeded two, or when from their occurrence on pilgrim or emigrant ships or for other special reasons further precautions may be deemed advisable, the pilot, or in his absence the master, shall keep hoisted by day or night, as the case may be, the signals prescribed by Regulation 2 and shall anchor the vessel in the place appointed for the purpose and shall not allow any of the passengers or crew to leave the vessel except with the permission of, or under such instructions as may be issued by, the Health Officer.

7. If a case of yellow fever or of plague or unusual mortality among rats has occurred on board, the vessel shall not take up the usual place of anchorage pending the visit of the Health Officer; in the meanwhile the vessel shall stop at such place as Government may by order provide.

8. So long as the signals prescribed by Regulation 2 are shown, no tindal or other person in charge of or navigating any boat shall, without the permission of the Health Officer, attempt to take it alongside such vessel.

PART IV.—INSPECTION OF VESSELS.

9. Whenever the Health Officer receives the notice referred to in Regulation 4, he shall without unnecessary delay proceed on board and examine the vessel, and the master shall give him every facility for the examination of the passengers, crew, personal effects, cargo, and any part of the ship the Health Officer thinks necessary. The Health Officer may require a declaration on oath from the medical officer (if any) of the vessel or from the master or from both, whether any death or sickness from an unknown or suspicious cause or any case of any of the diseases enumerated in the preamble has occurred on board the vessel either during the voyage or before her departure, and with reference to plague, whether any unusual mortality has been observed among rats. If the Health Officer is satisfied that such deaths as may have occurred were not due to any of the causes enumerated in the preamble, he shall permit the vessel to proceed to the usual place of anchorage and to discharge passengers and cargo without any further restrictions. If he is not so satisfied he shall proceed as provided in these regulations. The inspection by the Health Officer will ordinarily take place between sunrise and sunset.

10. As a result of every inspection the Health Officer shall classify the vessel as infected, suspected or healthy, in accordance with the definitions given in Part I.

11. On the completion of the inspection prescribed by Regulation 9, such of the passengers and crew as have been detained under Regulation 6(*a*) but who are found to be free from any of the diseases in question and unlikely to carry infection shall be allowed to land. All baggage, personal effects and cargo, except such articles as the Health Officer is entitled to disinfect, may also be landed.

12. If a case of any of the diseases enumerated in the preamble occurs on any vessel after she has entered dock or has been moored at a wharf, the master shall forthwith cause information thereof to be given to the dock master or superintendent of the wharf, who shall communicate the information to the Health Officer (through the Port Officer) and to the Superintendent of Police, and shall be responsible that the sick person shall be isolated as much as possible, and that free communication with the wharf is stopped until the Health Officer has inspected the vessel.

PART V.—REMOVAL OF THE SICK.

13. When on inspection the Health Officer considers it necessary in order to prevent the spread of disease, he shall take the measures indicated in Part VI of these regulations as the case may be.

14. Unless a vessel shall have had communication with the shore under the proviso to Regulation 44, and except as provided for under Regulation 19 (2) and 34, the removal of sick passengers is not to be enforced in the case of persons bound for an onward port unless under the clearest necessity of which the Health Officer shall be the judge, and in every such case a special report explaining the reasons for the action taken must be submitted by the Health Officer to Government.

15. The Health Officer shall inform the Municipal Health Officer in all cases in which he arranges for the conveyance of a patient to a sanitarium or hospital or other place within municipal limits, and shall furnish the Municipal Health Officer with the address of any private residence to which he permits the removal of a patient.

16. Where small-pox is the disease on account of which the vessel is deemed to be infected, the Health Officer shall offer, without charge, vaccination or revaccination to all persons willing to be operated upon, and shall cause to be vaccinated, if their guardians or those in charge of them consent, all children below 10 years and over 6 months of age who do not bear marks of vaccination or of small-pox. In the case of plague inoculation may similarly be offered free of charge to all willing to be inoculated.

PART VI.—MEASURES TO BE TAKEN IN THE CASE OF HEALTHY, INFECTED AND SUSPECTED VESSELS.

17. Vessels classed by the Health Officer after inspection as healthy, shall be given free pratique, save as otherwise provided in rules 23 **and 24.** Other vessels will be dealt with in accordance with rules contained in Parts VI (A), VI (B), VI (C), VI (D), or VI (E), according to the disease on account of which they are declared suspected or infected.

PART VI-A.—SMALL-POX, CHICKEN-POX, MEASLES, CHOLERA, TYPHUS AND SCARLET FEVER.

18. In the event of a vessel being classed either as infected or suspected on account of any of the above mentioned diseases, the Health Officer—

(1) shall arrange for the conveyance of any person suffering or suspected to be suffering from such disease to a sanitarium or hospital unless the sick person or his friends can make adequate provision elsewhere of which the Health Officer must satisfy himself; but he shall not enforce the removal from the vessel of any person or persons bound for an onward port except as provided for in Regulation 14;

(2) shall either himself undertake, or direct the master of the vessel to undertake, the destruction or disinfection of all clothing, bedding, and other articles that he may consider infected;

(3) may, when a vessel with one or more of the above-mentioned diseases on board has in his opinion passengers or crew in a filthy and unwholesome condition, cause the clothing and personal effects of such persons to be disinfected before allowing them to leave the vessel;

(4) may, in the case of undecked craft, direct the disinfection, or in special cases the destruction, of food-stuffs which have been exposed to contamination and are considered likely to be infected;

(5) may order that any portion of the vessel that has actually been exposed to contamination or is in a filthy or insanitary condition, or which he considers likely to be infected, should be disinfected and cleansed as he may direct and may prohibit the discharge of bilge-water or water ballast within port limits without previous disinfection;

(6) may, in the case of cholera, direct the master to have the bilges and water tanks emptied, cleaned and disinfected.

PART VI-B.—PLAGUE.

19. In the case of infected vessels the following measures shall be taken :—

(1) All persons on board shall be medically examined as prescribed in Regulation 9.

(2) All persons suffering from plague shall immediately be disembarked under the directions of the Health Officer and isolated in the camp or hospital, whether ashore or afloat, appointed by Government for the purpose.

(3) At the discretion of the Health Officer other persons may also be disembarked and be subjected to observation* or surveillance* or **to a period of** observation followed by surveillance **provided that the total duration of these measures** shall not exceed five days **from the time of arrival.**

(4) Such soiled linen, wearing apparel and articles belonging to the crew and passengers as are, in the opinion of the Health Officer, infected, shall be disinfected.

(5) All parts of the vessel which have been occupied or frequented by plague patients shall be disinfected ; and any other parts of the vessel that, in the opinion of the Health Officer, are infected, shall be disinfected.

(6) The rats on board shall be destroyed, either before or after discharge of the cargo, in either case as quickly as possible, and in such manner as to avoid as far as possible damage to merchandise and to the ship's plating and engines. **The operation, in any case, must not last longer than forty-eight hours.** In the case of ships in ballast this process must be carried out as soon as possible, before embarking cargo.

(7) Passengers arriving by an infected ship and subjected to the provisions of clauses (2), (3) and (4) above are entitled to obtain from the Health Officer a certificate showing the date of their arrival and the measures taken as regards themselves and their baggage.

20. When the measures prescribed in Regulation *19* have been duly taken in respect of any vessel the Health Officer shall, by written order, grant pratique, provided that, if a case of plague or of illness suspected to be plague occurs on board subsequent to the grant of the above certificate, the certificate shall become invalid and the vessel again become subject to the requirements of the regulations regarding infected vessels.

21. In the case of suspected vessels the following measures shall be taken :—

(1) All persons on board shall be medically examined as prescribed in Regulation 9.

(2) The destruction of rats may be ordered at the discretion of the Health Officer, and if ordered shall be carried out in the terms of Regulation *19* (6).

(3) All soiled linen, wearing apparel and personal effects of the crew and passengers which are or are suspected to be infected, shall be disinfected.

(4) All parts of the vessel which have been occupied or frequented by plague patients shall be disinfected; and any other parts of the vessel that, in the opinion of the Health Officer, are infected, shall be disinfected.

22. When the measures prescribed in Regulation 21 have been taken in respect of any vessel, the Health Officer shall, by written order, grant pratique.

* "Observation" means isolation either on board the ship or in a sanitary station appointed for the purpose before the grant of pratique. Passengers under "surveillance" are not isolated ; they receive pratique at once and are at liberty to proceed to their destinations, but the authorities at those places are informed of their coming and they are subjected to medical examination for such period as may be fixed in these regulations.

23. In the case of healthy vessels, **other than those referred to in rule 24,** pratique shall ordinarily be given at once as provided for in Regulation *17* but the Health Officer may, in his discretion, if special circumstances appear to him to require it, impose any or all of the following measures :—

(1) medical examination as prescribed in Regulation 9;
(2) disinfection of soiled linen, etc., as prescribed in Regulation *19* (4);
(3) destruction of rats as prescribed in Regulation 19 (6); but the process of deratisation **when applied in the case of a healthy ship from a plague-infected port** must not occupy more than 24 hours **and should be carried out in such a manner as not to interfere with the coming and going of passengers and crew between the ship and the shore.**

24. In the case of a healthy vessel on which unusual mortality among rats has been observed, the following measures shall be taken:—

(1) medical examination as prescribed in Regulation 9 ;
(2) bacteriological examination of rats for plague as far and as quickly as possible ;
(3) destruction of rats as prescribed in Regulation *19* (6) when considered necessary by the Health Officer or when rats are found on bacteriological examination to have plague ;
(4) in case of rats having plague, disinfection of such parts of the ship and such articles as the Health Officer considers infected ;
(5) surveillance of passengers and crew for a period not exceeding five days from the time of arrival.

25. In exercise of the functions imposed upon him by Regulations 9, 19 and 21, the Health Officer shall :—

(*a*) attach due importance to the presence on board the vessel of a medical officer and to the provision of apparatus for disinfection by means of saturated steam and for the destruction of rats, and
(*b*) shall take into account the sanitary or insanitary, and roomy or crowded condition of the vessels.

26. If in the case of any vessel making a passing call, the communication with the shore is restricted to the landing of passengers, mails or goods, the Health Officer may, in his discretion, enforce the provisions of Regulation *19*, *21*, *23* **or 24** as the case may be, to such extent only as may, in his opinion, be necessary for the purpose of controlling the actual communication with the shore.

Provided (*a*) that any persons on board the vessel whom the Health Officer has reason to believe to be suffering from plague shall be landed and kept under observation.

Provided also (*b*) that ships from an infected place that have been disinfected and have undergone adequate sanitary measures, shall not, on their arrival in another port, be subjected to these measures a second time if no case has occurred since the disinfection was performed and if they have not called at an infected port. A ship which has merely disembarked passengers and their baggage or mails, without having been in communication with the shore, shall not be regarded as having called at the port.

27. The Health Officer shall, whenever requested, furnish the master, the ship-owner or the ship-owner's agent with a certificate stating that measures of rat destruction have been carried out and giving the reasons why they were resorted to. **Health officers of ports visited by ships upon which periodic rat destruction is carried out, should take such certificate into account in considering whether measures under Regulation *23* (3) should be imposed.**

28. The foregoing regulations shall not prevent the transhipment, under restrictions to be imposed by the Health Officer in conformity therewith, of passengers, mails or goods between vessels which have not been granted pratique.

29. If any case of plague occurs among any group of persons who are being kept under observation, the patient shall be isolated or sent to a hospital, and the other persons shall continue to be detained and segregated as aforesaid for a period not exceeding five days from the date on which the group became free from plague. The clothes and effects of the patient and of such persons as have been in contact with the patient shall be disinfected at the discretion of the medical officer in charge.

30. The medical officer in charge of any place appointed for the isolation of any persons under these regulations may, in his discretion, by written order, direct that any person who is kept there under observation shall be allowed to depart and shall be subject to surveillance.

31. If the system of surveillance to which any person is subjected on shore requires his daily attendance before a medical officer, the Health Officer may, by written order, exempt such person from such attendance on being satisfied that he may be relied upon to send in a prompt report if he should fall sick.

32. Persons subjected to surveillance shall submit to, and comply with, all directions as to medical supervision or otherwise, which may be given by written order of a medical officer appointed by Government in this behalf.

PART VI-C.—YELLOW FEVER.

33. In the case of vessels which have, within a period of two months immediately preceding their arrival, started from or touched *en route* at a port infected with yellow fever or communicated (except orally without contact or by signal) with a vessel either infected or which has left an infected port within that period, the following procedure shall be observed :—

(1) The vessel shall be anchored at sea or in the river at such special anchorage as may be fixed for this purpose by the Local Government but in no case less than half a mile from the land at low water. The visit of the Health Officer shall be made during the day as early as possible and all persons on board shall be medically examined as prescribed in Regulation 9.

(2) Any person suffering from yellow fever, if in the first four days of the disease, or if there is any doubt about the duration of the disease, shall be protected from the approach of mosquitoes by means of curtains, and shall be treated on board for at least four days. Any person suffering from fever shall similarly be isolated, be protected from the approach of mosquitoes by curtains and treated on board for at least four days. All passengers in perfect health (with normal temperature, etc.), may be landed, and shall be kept under close observation for a period of at least eight days extensible at the discretion of the Health Officer to a maximum of twelve days, special precautions being taken throughout the whole of this period to prevent mosquitoes having access to them.

(3) In no case should any person sick of yellow fever be landed during the first four days of his illness without the special sanction of Government. If such sanction is given, the most minute precautions to prevent mosquitoes reaching the patient shall be taken, including a mosquito-proof cabin on the launch, mosquito-proof ambulances and a mosquito-proof ward in an isolation hospital.

(4) The crew of the vessel should be required to sleep in airy places preferably on deck, and should be protected by mosquito curtains.

(5) The ship shall be cleared of mosquitoes by the systematic fumigation,* under efficient supervision, of every cabin, store-room, alley-way and hold.

In the case of a vessel having on board a person suffering, or suspected to be suffering, from sleeping sickness, the person or persons shall not be permitted to land without the specific written permission of the Health Officer, who may, pending the receipt of written instructions from Government, permit the landing of such persons only if arrangements can be made for their strict isolation on shore. In the case of Aden the Health Officer may prevent the embarkation of, or subject to the arrangements above referred to, may disembark any person proceeding to India who is suffering or suspected to be suffering from sleeping sickness.

35. In the case of a vessel arriving from the East Coast of Africa within the limits of Port Sudan and Durban or from other localities declared to be infected, the procedure prescribed by Regulation 2 shall be complied with and the crew or passengers, etc., shall be medically inspected in accordance with Regulation 9.

PART VI-E.—JIGGER.

(1) the Health Officer shall carefully examine every person on board and any person or persons found to be suffering shall be removed to hospital for treatment;

(4) the ballast of such vessel, if of earth or sand, shall not be landed without the permission, in writing, of the Health Officer, who, if he considers it necessary, may order that it shall be discharged into the sea or river at such places as shall be appointed for the purpose by the Conservators of the Port of Calcutta or Chittagong, as the case may be, subject to the approval of the Local Government.

PART VII.—GENERAL.

Vessels.

37. The master of any vessel coming under these regulations shall comply with all directions which the Health Officer may consider necessary under the foregoing rules.

38 The master of any vessel who may object to submit to the foregoing regulations may put out to sea again, provided that objection has been taken before there has been any communication, except by signal or through the port authorities, between such vessel and the shore or with any other vessel in port. Goods may be landed from such vessels after precautions have been taken to isolate the ship, crew and passengers and on condition that such information as the Health Officer may require regarding the mortality among rats is duly supplied: Passengers may be disembarked at their own request on condition that they submit to all the measures prescribed by the local authorities.

39. In the event of any vessel putting back to sea the Health Officer shall intimate the fact by telegraph to the next port of call if in British India.

Persons.

40. All persons removed to hospital or kept under observation at any place shall obey and conform to the rules, regulations and orders for the time being in force at such hospital or place and shall be liable to pay all such charges as for the time being may, under the sanction of Government, be made against them.

41. When a suspected case of any infectious disease is removed from a vessel at any port, the Health Officer shall report the confirmation or otherwise of the diagnosis, by telegraph, to the Health Officer of the next port of call if that port is in British India, Ceylon or the Straits Settlements. In other cases a note shall be made on the bill of health stating the nature of the suspected infectious disease and the precautions taken in connection therewith.

Dead Bodies.

42. Disposal shall be as follows:—

(1) If death occurs on board a vessel before entering port limits, the body shall, unless there are special reasons to the contrary, be buried at sea in not less than nine fathoms of water, in such manner as shall secure its immediate sinking and remaining below the surface.

(2) If death occurs during the day on board a vessel within the port limits the ensign and house flag, if there is one, are immediately to be lowered half-mast and kept in such position from sunrise till sunset as long as the body remains on board. If death occurs between sunset and sunrise one red light is to be hoisted at the peak, half-mast high.

(3) The master of the vessel shall cause the death of a person on board to be intimated forthwith to the police, either by letter or otherwise and shall forward to the Port Officer a written report as soon as possible after the occurrence, in which all the circumstances attending the death must be fully detailed.

(4) No dead body shall be removed from a vessel within port limits without the permission of the police, which shall not be given until the Health Officer has certified either—

(*a*) that the death is not due to infectious disease, or

(*b*) that in the case of infectious disease, the Port authorities have given permission for burial on shore.

If the Port authorities in consultation with the Health Officer decide that burial on shore cannot be permitted, the body must be buried at sea in such manner as the Health Officer may direct.

Disinfection.

43. All disinfection prescribed by these regulations shall be carried out, unless otherwise specifically provided for, in the manner prescribed in the Appendix thereto.

PART VIII.—VESSELS LEAVING PORTS IN THE PRESIDENCY OF BENGAL FOR PORTS BEYOND INDIA.

44. No vessel shall leave any port which has been declared to be infected with any contagious or infectious disease for any port beyond India until—

(1) all persons sailing by the vessel, whether as passengers or as members of the crew, have been medically examined by the Health Officer;

(2) in the case of plague—

(*a*) all persons sailing by the vessel, either as passengers or as members of the crew (except such onward bound passengers as have not remained one night on shore and such members of the crew, as have not remained one night on shore or have not newly joined, who may be examined on board) have been medically examined by the Health Officer on shore by day as shortly as possible before embarkation ;

(*b*) all merchandise or articles of any sort which the Health Officer may consider to be infected with plague have been disinfected on shore previous to embarkation ;

(*c*) all clothing, bedding, and infected articles belonging to Asiatic and African members of the crew, not being officers, engineers or doctors, to deck and fourth class passengers, and to third class passengers not entitled to cabin accommodation, which the Health Officer may consider to be infected with plague, and, if the Health Officer thinks fit so to direct, all clothing, bedding and infected articles belonging to passengers of any class higher than the third and of any members of the crew, have been disinfected on shore by day as shortly as possible before being placed on board ;

(3) the Health Officer has given to the master of the vessel a bill of health stating that the medical examination and disinfection prescribed by this regulation have been carried out;

(4) in the case of any disease other than plague the Health Officer may, in his discretion, enforce the provisions of clauses 2 (*b*) and 2 (*c*) above :

Provided that, if the vessel is only making a call at the port in question, the medical examination and disinfection prescribed by this regulation shall be made only in the case of persons joining the vessel there and articles belonging to them, unless there is communication between the vessel and the shore. The Health Officer shall decide, for the purpose of this proviso, what constitutes communication between the vessel and the shore. The bill of health in such case need only take the form of an endorsement on the last bill of health held by the vessel and need only refer to the passengers and crew embarking at the port in question.

45. It shall be open to the Consular representative interested in any vessel to be present, if he so desires, at the medical examination and disinfection prescribed by regulation 14.

46. If any vessel does not leave port within 24 hours after the medical examination made under Regulation 44, she shall not leave until—

(*a*) a fresh medical examination of the passengers and crew has been made under that regulation, and

(*b*) a fresh bill of health has been given to the master under that regulation :

Provided that such fresh examination may be conducted on board the vessel, whether or not there has been communication with the shore since the previous examination was made, and provided that if the time of departure be after sunrise on the day after that of inspection, the master of the vessel shall send the bill of health to the Health Officer to have the date of departure amended.

47. If, after a bill of health has been given to the master of any vessel and before the vessel leaves the port, any cargo or goods of any kind be placed on or taken off the vessel except in such manner as may be directed by the Health Officer, the vessel shall not leave the port until—

(*a*) such further medical examination and disinfection as the Health Officer may consider necessary have been made under Regulation 44, and

(*b*) a fresh bill of health has been given to the master under that regulation :

Provided that such further examination and disinfection may be conducted on board the vessel.

48. (1) After a bill of health has been given to the master of any vessel no person except the pilot or person authorised by the Health Officer shall be permitted to embark on the vessel unless he has been medically examined by the Health Officer as prescribed in Regulation 44.

(2) If any such person is permitted to embark, the Health Officer shall amend the bill of health accordingly.

49. Port-clearance shall not be granted for any vessel, unless and until the master produces the bill of health prescribed by the foregoing regulations :

Provided that, at any port where, in the opinion of Government, local conditions render this relaxation advisable, the authority responsible for granting port-clearance may grant port-clearance for any vessel on receiving from the agents of the vessel a written guarantee that a duplicate of such bill of health, signed by the Health Officer, will be furnished by them to him within forty-eight hours.

50. (1) If the Health Officer considers that any passenger is suffering from, or is in the incubation stage of, any infectious or contagious disease, he shall prevent such passenger and his or her relatives and attendants from embarking or sailing : and their baggage and personal effects shall not be allowed on board the vessel and, if already placed on board, shall be removed as early as possible.

(2) For the purposes of this regulation, the term "relatives" shall mean such persons as have been living with, or have been, in the opinion of the Health Officer, in dangerous communication with the suspected passengers.

51. (1) If the Health Officer considers that any member of the crew of the vessel is suffering from, or is suspected to be in the incubation stage of, any infectious or contagious disease—

(*a*) he shall prevent such member from re-embarking on such vessel and shall refuse to give a bill of health until the baggage and personal effects of such member have been removed from the vessel and such parts of the vessel as have been occupied or frequented by such member have been disinfected ; and

(*b*) the baggage and personal effects of such persons as were in immediate contact with such member of the crew shall be disinfected, and the names of such persons shall be given to the medical officer or master of the vessel for supervision on the voyage

(2) All action taken under clause (1) of this regulation for the disinfection of a vessel shall be noted in the bill of health.

52 Any person who is prevented by the Health Officer under the foregoing regulations from embarking or sailing may be removed to and kept at a hospital or kept under observation ; or, if any such person gives a genuine address, he may, at the discretion of the Health Officer, be subjected to surveillance for a period not exceeding five days.

53. At all ports declared to be infected with plague proper measures shall be taken to prevent rats obtaining access to vessels (Appendix B).

54. Regulations 44 to 53 shall apply to all pilgrim or emigrant ships and may, by order of Government, be applied to vessels leaving a port in India or Burma for another in India or Burma.

(*See Regulation 43.*)

APPENDIX A.

INSTRUCTIONS FOR DISINFECTION.

Personal effects, such as rags, bandages, papers and other articles without value, which, in the opinion of the Health Officer, are deemed likely to carry infection, should be destroyed by fire.

2. Under-clothing, bedding, wearing apparel, mattresses, carpets, etc., which are contaminated or suspected, and other articles to be disinfected, should be exposed for 15 minutes to saturated steam—under pressure if possible—at a temperature of not less than 100°C (212°F.), care being taken that the steam shall reach all parts of each article to be disinfected.

3. *Disinfecting Solutions.*—

(*a*) Solution of corrosive sublimate of one part in 1,000 with the addition of 2 parts in 1,000 of hydrochloric acid or 160 grains of chloride of soda in one gallon. The solution should be coloured with aniline dye or indigo. It should not be placed in metal vessels.

(*b*) A 5 per cent. solution of pure crystallized carbolic acid, or 5 per cent. of crude commercial carbolic acid free from tar oils in a warm solution of soft soap.

(*c*) Freshly-prepared lime-wash.*

(*d*) Such proprietary tar acid compound as the port Health Officer may approve of.

4. *Special instructions to be observed in the employment of disinfecting solution.*—The linen, clothing and articles soiled by the excreta of patients should be soaked in the solution of corrosive sublimate. The solution of pure carbolic acid and the solution of soap and carbolic acid are equally suited to the purpose. The articles should remain in the solution for at least six hours.

Articles which cannot be subjected to the temperature of 212° F. without injury, as leather goods, wooden articles stuck together with glue felt, velvet silk, etc., should be washed with a disinfecting solution; coins can be disinfected with the solution of soap and carbolic acid. Persons engaged in nursing the sick should wash their hands and faces with one of the carbolic solutions. The carbolic solutions will be useful more particularly for disinfecting articles such as metal, or instruments, which can neither be subjected to a temperature of 212°F. nor placed in contact with corrosive sublimate. Chlorinated lime is particularly recommended for disinfecting excreta. Expectorated matter should be burnt.

5. *Disinfection of ships on which plague has occurred among human beings or rats.*—All rats on board shall be destroyed by means of sulphurous anhydride or other suitable disinfectant. The cabins, etc., occupied by the sick or those suspected to be suffering from plague shall, at the discretion of the Health Officer, be treated with a solution of corrosive sublimate and thoroughly cleansed with soap and water. In the case of pneumonic plague preliminary disinfection with corrosive sublimate solution shall be invariably carried out.

6. *Disinfection of the hold of an infected ship.*—The bilge-water shall be pumped out, and the hold washed with sea-water, a sufficient quanity of a solution of corrosive sublimate being subsequently thrown in at the discretion of the Health Officer. The bilge-water shall not be pumped out when the vessel is in harbour without the written consent of the Health Officer.

APPENDIX B.

MEASURES TO BE ADOPTED TO PREVENT RATS OBTAINING ACCESS TO VESSELS.

1. There shall be a space of at least three feet between any part of the vessel and the wall of the dock or wharf.

2. All ropes and hawsers connecting the vessel with the dock or wharf shall be furnished with a circular concave-convex rat-guard at least four feet in diameter, fitting tightly, with the concavity towards the wharf, on the rope or hawser, and so fixed that no part of the margin of the guard shall be less than 24 inches from the rope or hawser, or any other pattern of rat-guard that may be approved by Government.

3. To prevent rats reaching the ship by means of a gangway, as few gangways shall be used as possible; all gangways shall be raised at night; and a watchman shall be placed on each gangway during the day from the time the gangway is lowered until it is raised.

4. A responsible person shall be deputed by the Local Government to ensure these measures being applied immediately the vessel is berthed.

* The lime-wash should contain 20 per cent. of lime, and may be prepared as follows :—Take 2 pounds of good quick-lime and slake it by moistening it gradually with about half a pint of water. When the operation is completed, the resulting powder must be kept in an airtight vessel in a dry place.

For use the quantity of slaked lime obtained from 2 pounds of quick-lime should be placed in a convenient vessel and water added to make one gallon.

BRITISH POSSESSIONS.

Caution when Approaching British Ports.

No. 51 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1917), are republished :—

PART I.

CLOSING OF PORTS.

Former Notice.—No. 645 of 1916 (*This office No. 233 of 1916*) hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports or the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, referred to in Part III of this Notice, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) **If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.**

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination vessel or signal station.

(3) At all the ports or localities at home or abroad referred to in Part III of this Notice, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

EXAMINATION SERVICE.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad, referred to in Part III of this Notice.

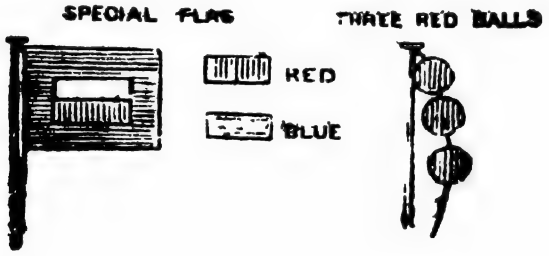
(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the Port. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In entering by night any of the ports mentioned in Part III, serious delay and risk will be avoided if four efficient all round lamps, two *red* and two *white*, are kept available for use.

(7) **By day** the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.



By night the steamer will carry :—

(*a*) Three *red* vertical lights if the port is closed.

(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the distinguishing signal of their vessel ready to hoist immediately the Examination Steamer makes the signal.

(9) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer.

Whilst at anchor in the Examination Anchorage, Masters are warned that they must not lower any boats (except, to avoid accident), communicate with the shore, work cables, move the ship, or allow anyone to leave the ship, without permission from the Examination Steamer.

(10) In case of fog, Masters are enjoined to use the utmost care, and the Port should be approached with caution.

(11) Merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night; the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART IV.

SWEEPING OPERATIONS.

Notice is hereby given that under the Defence of the Realm (Consolidation) Regulations, 1914, the following regulations have been made by the Lords Commissioners of the Admiralty, and are now in force.

H. M. Vessels are constantly engaged in sweeping operations off the coasts of the United Kingdom.

Whilst so engaged, they work in pairs connected by a wire hawser, and are consequently hampered to a very considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which these vessels are engaged, they will show the following signals :—

A black ball at the foremast head and a similar ball at the yardarm, or where it can best be seen, on that side on which it is dangerous for vessels to pass.

For the public safety, all other vessels, whether steamers or sailing craft, must keep out of the way of vessels flying this signal, and should especially remember that it is dangerous to *pass between* the vessels of a pair, as the vessels may have mines trailing in their sweeps and also on account of the danger caused to traffic if mine sweepers have to slip their sweeps to get out of the way of vessels.

CAUTION.

Part IV of this Admiralty Notice to Mariners is issued under the provisions of the Defence of the Realm (Consolidation) Regulations, 1914, and failure to comply strictly with the directions contained in it will constitute an offence against those Regulations.

Any person found guilty of such an offence is liable to severe penalties both of imprisonment and fine.

Any person aiding or abetting the commission of such an offence is himself guilty of an offence against the Regulations.

Attention is also drawn to the fact that any infringement of the directions contained in Part IV of this Admiralty Notice to Mariners is liable to result in the detention of the ship or vessel.

Second Forecast of the Wheat Crop of Bengal, 1916-17.

(Notes.—On an average of the five years ending 1914-15 the area under Wheat in Bengal has represented some 0·5 per cent. of the total area under Wheat in India. The ratio of irrigated Wheat acreage to total Wheat acreage in (a) British India and (b) in the territory now reported on has, in the five years ending 1914-15 averaged (a) 38·1 per cent. and (b) 16·8 per cent. respectively.)

Character of the season.—Excessive rainfall in September and October retarded sowings generally. Further heavy rain in the first part of November again interfered with sowings and affected the growth of the crop already

sown. Since then, dry weather continued till January last and affected the outturn to some extent. On the whole the season may be regarded as rather unfavourable.

Area sown.—The total area sown this year is estimated at 128,200 acres against 133,600 acres reported in the corresponding and final forecast of last year.

Outturn.—The estimated percentages of outturn in the important wheat growing districts are as follows :—

Nadia 58, Murshidabad 83, while Pabna and Malda 80 each.

According to the estimates of the District Officers the Provincial Outturn works out to 78 per cent. of the normal against the same estimate last year.

Murshidabad ...	69,300	31,300	34,900	75	83	October and November. Late. The outturn is anticipated to be below the normal owing to heavy rainfall in November. In the Sadar subdivision a little damage has been done to the crop by insects.
Birbhum	5,000	4,100*	4,100*	75	83	Beginning of November. Normal.	The weather has been favourable since the submission of the first forecast. The fall in outturn is due to excessive rain in November.

Dinajpur	1,000	1,400*	1,400*	58	53	Beginning of November. Late.	The weather has not been favourable. Late sowing and insufficient rain after sowing of the crop account for the low outturn.

Darjeeling	4,500	4,400	2,800	85	77	End of September. Normal.	The decrease in area is due to the fact that previous figures included Kalimpong figures twice. The weather has not been favourable. The damage to the extent of 23 per cent. has been caused by drought.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Spring Oilseed Crops of Bengal, 1916-17.

(Note.—On the average of the five years ending 1914-15, the area under linseed in Bengal represents some 5·7 per cent. and that under rape and mustard 20·8 per cent. of the total area under these crops in British India).

Area sown.—Oilseeds are grown principally in the Rajshahi, Dacca and Presidency Divisions. The total area under these crops (excepting sesamum for which separate forecasts are published) is returned at 1,415,800 acres, as against 1,545,500 acres reported in the corresponding forecast of last year, or a decrease of 129,700 acres. The decrease is attributed to excessive rainfall at sowing time.

Character of the season.—The rainfall in the months of September and October was much above the normal. Sowings which generally commence at this time were in consequence delayed in most districts. Untimely heavy showers in the first part of November checked further sowings and caused some damage to the crops on the sown area. Dry weather which prevailed during the months of December and January has reduced the outturn to some extent. The prospects so far are reported to be fair.

Outturn.—According to the estimates of District Officers. the total outturn of the different kinds of oilseeds (excepting *til*) for the Province as a whole works out to 87 per cent. against 79 per cent. of the normal last year, and against 82 per cent. reported in the corresponding forecast of last year.

No. 18Marine.—In exercise of the powers conferred by section 4 of the Bengal Steam-boilers and Prime-movers Act, 1879 (Bengal Act III of 1879), as amended by Bengal Act II of 1915, the Governor in Council is pleased to make the following rules to regulate the grant of leave and pension to the Inspectors appointed under the said Act.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

Rules.

Extent and application

1. The following rules regarding leave and pension apply to Inspectors appointed permanently under the Steam-boilers and Prime-movers Act 1879.

Power to grant leave

2. The power to grant leave to the Inspectors shall rest with the Commissioners appointed under the Act.

General condition of grant of leave

3. Leave of absence cannot be claimed as a matter of right. Leave may be granted or refused at any time according to the exigencies of the service.

4. All applications for leave other than on medical certificate should be submitted at least three months before the date from which the leave is to commence.

5. Unless specially otherwise ordered, leave must begin within thirty-five days of the date on which it is granted.

Recall from leave.

6. The rules laid down in the Civil Service Regulations regarding recall from leave will apply to the Boiler Inspectors *mutatis mutandis.*

Kinds of leave.

7. The rules provide for the following kinds of leave :—

(*a*) Privilege leave.

(*b*) Furlough.

(*c*) Special leave on urgent private affairs.

(*d*) Extraordinary leave without allowance.

Combination, continuation and commutation of leave

8. Privilege leave may be prefixed to furlough, special leave on urgent private affairs, or extraordinary leave without allowance subject to the following conditions :—

(*i*) When privilege leave is combined with furlough the amount of the combined leave shall not exceed two years.

(*ii*) When privilege leave is combined with special leave the combined leave shall not exceed six months.

(*iii*) When, however, furlough or special leave granted in combination with privilege leave is extended on medical certificate the full period of furlough or special leave ordinarily admissible may be allowed, irrespective of the limits prescribed in the above clauses.

(*iv*) When privilege leave is combined with leave of any kind the combined leave must be for not less than six months.

9. Extraordinary leave without allowance may be granted in continuation of any other kind of leave and any leave may be retrospectively changed into any other kind or period of leave for which the officer was qualified when the original leave was granted

Maximum leave admissible.

10. After five years' continuous absence from duty an officer shall be considered to be out of employment.

Commencement and end of leave

11. Leave commences from the date an officer actually makes over charge and ends on the date on which he resumes duty, at the expiration of the leave granted.

12. In the case of overstayal of leave the rules laid down in the Civil Service Regulations will apply.

Overstayal of leave.

13. The amount of privilege leave earned by an officer shall be one-eleventh part of the time he has been on duty without interruption, provided that no privilege leave can be earned by duty performed while three months of such leave is due to him, and that whenever duty is interrupted all claim to privilege leave earned theretofore is forfeited. Absence on privilege leave, though not counting as duty, is not an interruption of duty within the meaning of this article.

Short leave, privilege leave.

14. The calculation must be made as follows :—

Calculation how made.

One calendar month for every eleven complete calendar months of duty and one day for every eleven days of the balance.

15. The amount of privilege leave admissible at one time is limited to three calendar months.

Limit.

16. The privilege leave due to an officer is the privilege leave which he has earned since the last interruption of duty, less the period during which he has been absent on privilege leave.

Amount due.

17. An Inspector on privilege leave is entitled to an allowance equal to the salary which he would receive if he were on duty, even though another officer is appointed to act for him, the extra charge being borne by the Fund.

Allowances.

18. The aggregate amount of furlough and of special leave with allowances admissible is six years.

Long leave, furlough—general limitation.

19. The amount of furlough earned by an Inspector is one-fourth of his active service.

Furlough earned.

20. The amount of furlough due is the amount which an Inspector has earned, diminished by the furlough or special leave with allowance which he has enjoyed under these rules.

Furlough due.

21. To an Inspector who has rendered three years' continuous service furlough for not more than two years may be granted as follows :—

Furlough admissible.

(*a*) on medical certificate—unconditionally,

(*b*) without medical certificate, subject to the following provisos :—

(*i*) that the furlough be due to him,

(*ii*) that he has rendered eight years' active service,

(*iii*) that an interval of not less than eighteen months has elapsed between the last return from privilege leave, of over six weeks' duration and the furlough or privilege leave if any, with which the furlough is combined. In the case of privilege leave combined with other leave which does not interrupt continuous service, the period of eighteen months begins to run from the date subsequent to that of the end of the combined leave.

22. To an officer who has not rendered three years' continuous service furlough may be granted on medical certificate as follows :—

(*a*) if the furlough due exceeds a year to the extent due, not exceeding two years,

(*b*) if the furlough due does not exceed a year, for not more than one year.

23. (*a*) Furlough granted under rule 21 may, on medical certificate, be extended to not more than three years.

Extension of furlough.

(*b*) Furlough granted under rule 22 for less than two years under clause (*a*), or less than one year under clause (*b*), may, on medical certificate, be extended to the extent of the furlough due to the Inspector, not exceeding two years, or to one year, respectively.

Ordinary furlough.

24. Ordinary furlough can, under no circumstances, extend beyond two years at one time. It includes—

(*i*) the first two years of each separate period of furlough under rule 21, including any extension under rule 23 (*a*),

(*ii*) so much of furlough under rule 21, including any extension under rule 23 (*b*) as may be due.

Allowances.

25. An Inspector on ordinary furlough is entitled to a leave allowance equal to half his average salary, and in the case of furlough other than ordinary, to the same allowance.

Special leave.

26. Special leave on urgent private affairs may be granted at any time for not more than six months: provided that an officer who has had special leave must render six years' active service before he can again have such leave.

Allowances.

27. (*a*) For the first six months for which an officer is on special leave, whether the six months be included in the same leave or not, he is entitled to a leave allowance equal to half his average salary. Thereafter he is entitled to no leave allowance.

(*b*) An Inspector on special leave does not forfeit his past leave allowances by resigning the service without returning to India.

Extraordinary leave without allowance.

28. Extraordinary leave without allowance may, in case of necessity and when no other leave is by rule admissible, be granted for such time as may be necessary. No Inspector is entitled to extraordinary leave.

Subsidiary leave.

29. Subsidiary leave may be allowed to a Boiler Inspector in accordance with the rules in Chapter XIII, section V of the Civil Service Regulations.

Leave of Inspectors not possessing European qualifications.

30. Rules 18 to 27 and 29 apply only to European Inspectors possessing European qualifications. Inspectors who do not fulfil these conditions will be entitled to long leave under the Indian Services leave rules, as laid down in Chapter XIV of the Civil Service Regulations.

Leave of temporary or officiating Inspectors.

31. An Inspector who has a temporary or officiating appointment only may be allowed :—

(*a*) leave on medical certificate on half his average salary for not more than three months, if no substitute is required, or if his duties can be provided for without additional expense;

(*b*) leave without allowance under rule 28 for not more than three months.

Remuneration of acting Inspectors without a substantive appointment.

32. (*a*) Remuneration to be paid to any person appointed to act for an Inspector on leave will be half the minimum pay of the lowest grade, irrespective of the leave allowance drawn by the absentee.

(*b*) In special cases the acting allowance may, with the previous sanction of the Local Government, be increased to an amount not exceeding the minimum pay of the lowest grade.

Conditions of grant of pension.

33. A pension may ordinarily be granted :—

(*i*) as compensation on discharge in the case of reduction of establishment,

(*ii*) on retirement owing to duly certified bodily or mental infirmity,

(*iii*) on retirement after attaining the age of 55 years, or

(*iv*) after the completion of qualifying service for 30 years.

Qualifying service commences when an officer actually joins the service in the Fund Establishment, and it includes time spent on duty and privilege leave, as also the time passed on leave with allowances, as laid down in article 408 of the Civil Service Regulations.

34. The amount of a pension is regulated as follows :—

(*a*) After a service of less than ten years, a gratuity not exceeding (except in special cases, and under the orders of Government) one month's emoluments for each completed year of service. If the emoluments of the Inspector have been reduced during the last three years of his service, otherwise than as a penalty, average emoluments may, at the discretion of the Local Government, be substituted for emoluments.

(*b*) After a service of not less than ten years a pension not exceeding the amount arrived at on the following scale :—

Years of completed service.	Scale of pension.	Maximum limit of pension.	
		Rs.	Rs.
10	$\frac{10}{60}$ths of the average emoluments	2,000 a year	= 166⅔ a month.
11	$\frac{11}{60}$ths ,,	2,200 ,,	183⅓ ,,
12	$\frac{12}{60}$ths ,,	2,400 ,,	200 ,,
13	$\frac{13}{60}$ths ,,	2,600 ,,	216⅔ ,,
14	$\frac{14}{60}$ths ,,	2,800 ,,	233⅓ ,,
15	$\frac{15}{60}$ths ,,	3,000 ,,	250 ,,
16	$\frac{16}{60}$ths ,,	3,200 ,,	266⅔ ,,
17	$\frac{17}{60}$ths ,,	3,400 ,,	283⅓ ,,
18	$\frac{18}{60}$ths ,,	3,600 ,,	300 ,,
19	$\frac{19}{60}$ths ,,	3,800 ,,	316⅔ ,,
20	$\frac{20}{60}$ths ,,	4,000 ,,	333⅓ ,,
21	$\frac{21}{60}$ths ,,	4,200 ,,	350 ,,
22	$\frac{22}{60}$ths ,,	4,400 ,,	366⅔ ,,
23	$\frac{23}{60}$ths ,,	4,600 ,,	383⅓ ,,
24	$\frac{24}{60}$ths ,,	4,800 ,,	400 ,,
25	and above $\frac{30}{60}$ths ,,	5,000 ,,	416⅔ ,,

NOTE.—(1) For the precise meaning of average emoluments see articles 486 and 487 of the Civil Service Regulations.

(2) The reduction referred to in article 478 (*a*) of the Civil Service Regulations should not be applied to the Inspectors, as they are officers with technical training, which necessitates many years of practical and technical work before they become qualified for the work of the Commission, consequently most of them are over 30 years of age before joining the service.

Extraordinary pension

35. A pension, gratuity or compassionate allowance in case of injury or death may be granted—

(*i*) to an Inspector so injured in the execution of his public duty as to be incapacitated from earning a livelihood :

(*ii*) to the relatives of an Inspector killed in the execution of his duties, or who may die in such exceptional circumstances as would, in the opinion of the Government of India, justify the payment of a pension, gratuity or compassionate allowance to his relatives had he been in Government service.

This rule applies to any person employed in the service, whether permanently or temporarily.

36. A pension, gratuity or compassionate allowance under rule 35 may be granted only when injury or death is met in the performance of a duty which is attended with extraordinary bodily risk. No claim on account of loss of life or bodily injury resulting from ordinary accident is recognised.

37. The pension, gratuity or compassionate allowance under rule 35 is granted at the discretion of Government.

38. The amount of pension or gratuity under rule 35 is to be regulated by the conditions laid down in articles 737, 738, 739 and 740 of the Civil Service Regulations.

General.

39. Cases not provided for in these rules shall be dealt with under the Civil Service Regulations.

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS on the 11th day of March, 1915, an Order was issued by His Majesty in Council directing that all ships which sailed from their ports of departure after the 1st day of March, 1915, might be required to discharge in a British or Allied port goods which were of enemy origin or of enemy destination or which were enemy property :

And whereas such Order in Council was consequent upon certain Orders issued by the German Government purporting to declare, in violation of the usages of war, the waters surrounding the United Kingdom a military area, in which all British and Allied merchant vessels would be destroyed, irrespective of the lives of passengers and crew, and in which neutral shipping would be exposed to similar danger, in view of the uncertainties of naval warfare:

And whereas the sinking of British, Allied, and neutral merchant ships, irrespective of the lives of passengers and crews, and in violation of the usages of war, has not been confined to the waters surrounding the United Kingdom, but has taken place in a large portion of the area of naval operations:

And whereas such illegal acts have been committed not only by German warships but by warships flying the flag of each of the enemy countries:

And whereas on account of the extension of the scope of the illegal operations carried out under the said German Orders, and in retaliation therefor, vessels have been required under the provisions of the Order in Council aforementioned to discharge in a British or Allied port goods which were of enemy origin or of enemy destination or which were enemy property, irrespective of the enemy country from or to which such goods were going or of the enemy country in which was domiciled the person whose property they were:

And whereas doubts have arisen as to whether the term "enemy" in articles 3 and 4 of the said Order in Council includes enemy countries other than Germany.

NOW, THEREFORE, His Majesty is pleased by and with the advice of His Privy Council, to order and it is hereby ordered, as follows:—

1. In articles 3 and 4 of the said Order in Council of the 11th March, 1915, aforementioned, the terms "enemy destination" and "enemy origin" shall be deemed to apply and shall apply to goods destined for or originating in any enemy country and the term "enemy property" shall be deemed to apply and shall apply to goods belonging to any person domiciled in any enemy country.

2. Effect shall be given to this Order in the application of the said Order in Council of the 11th March, 1915, to goods which previous to the date of this Order have been discharged at a British or Allied port, being goods of destination or origin or property which was enemy though not German, and all such goods shall be detained and dealt with in all respects as is provided in the said Order in Council of the 11th March, 1915.

BRITISH POSSESSIONS.

Caution when Approaching British Ports

No. 51 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1917), are republished :—

PART I.

CLOSING OF PORTS.

Former Notice.—No. 645 of 1916 (*This office No. 233 of 1916*) hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports or the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, referred to in Part III of this Notice, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) **If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.**

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination vessel or signal station.

(3) At all the ports or localities at home or abroad referred to in Part III of this Notice, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

EXAMINATION SERVICE.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad, referred to in Part III of this Notice.

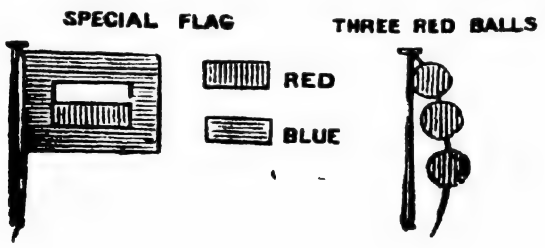
(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the Port. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In entering by night any of the ports mentioned in Part III, serious delay and risk will be avoided if four efficient all round lamps, two *red* and two *white*, are kept available for use.

(7) **By day** the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.



By night the steamer will carry :—

(*a*) Three *red* vertical lights if the port is closed.

(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the distinguishing signal of their vessel ready to hoist immediately the Examination Steamer makes the signal.

(9) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer.

Whilst at anchor in the Examination Anchorage, Masters are warned that they must not lower any boats (except to avoid accident), communicate with the shore, work cables, move the ship, or allow anyone to leave the ship, without permission from the Examination Steamer.

(10) In case of fog, Masters are enjoined to use the utmost care, and the Port should be approached with caution.

(11) Merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night; the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

SWEEPING OPERATIONS.

Notice is hereby given that under the Defence of the Realm (Consolidation) Regulations, 1914, the following regulations have been made by the Lords Commissioners of the Admiralty, and are now in force:

H M. Vessels are constantly engaged in sweeping operations off the coasts of the United Kingdom.

Whilst so engaged, they work in pairs connected by a wire hawser, and are consequently hampered to a very considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which these vessels are engaged, they will show the following signals :—

A black ball at the foremast head and a similar ball at the yardarm, or where it can best be seen, on that side on which it is dangerous for vessels to pass.

For the public safety, all other vessels, whether steamers or sailing craft, must keep out of the way of vessels flying this signal, and should especially remember that it is dangerous to *pass between* the vessels of a pair, as the vessels may have mines trailing in their sweeps and also on account of the danger caused to traffic if mine sweepers have to slip their sweeps to get out of the way of vessels.

CAUTION.

Part IV of this Admiralty Notice to Mariners is issued under the provisions of the Defence of the Realm (Consolidation) Regulations, 1914, and failure to comply strictly with the directions contained in it will constitute an offence against those Regulations.

Any person found guilty of such an offence is liable to severe penalties both of imprisonment and fine.

Any person aiding or abetting the commission of such an offence is himself guilty of an offence against the Regulations.

Attention is also drawn to the fact that any infringement of the directions contained in Part IV of this Admiralty Notice to Mariners is liable to result in the detention of the ship or vessel.

Note.

The 20th March 1917.

No. 22Marine.—In exercise of the power conferred by section 29 of the Inland Steam-vessels Act, 1917 (I of 1917), read with sections 20 and 31 of that Act, and with the previous sanction of the Governor-General in Council, the Governor in Council is pleased to make the following rules for regulating the grant of Certificates of Competency to Masters and Serangs of Inland Steam-vessels, in supersession of the previous rules on the subject published under the Government of Bengal, Marine Department, Notification No. 63Mne., dated the 16th July 1907, as amended by Notification No. 111Mne., dated the 25th August 1914, and under the late Government of Eastern Bengal and Assam Notification No. 137Mne., dated the 27th June 1908.

RULES.

Certificates granted to persons who pass examinations.

1. *Certificates of Competency* will be granted to those persons who pass the requisite examinations and otherwise comply with the requisite conditions. For this purpose arrangement will be made for holding examinations periodically at the Ports of Calcutta and Chittagong.

Examinations continued till all the candidates are examined.

2. The examinations will be held by the Port Officer, who is hereby appointed under section 20 of the Act, to hold such examinations, and one or more other examiners as the Government may from time to time appoint. They will commence early in the forenoon, and will be continued from day to day until all the candidates whose names appear upon the Port Officer's list on the day of examination are examined.

3. Candidates for examination must make their application upon the appropriate form (Exn. *2b*), which must be filled up at the Port Office. The form properly filled in, together with the candidates' testimonials and discharges must be lodged with the Port Officer not later than the day before the day of examination.

Testimonials of character, conduct, and ability required.

4. Testimonials of character and of sobriety, experience, ability and good conduct on boardship for at least the last twelve months' service preceding the date of application to be examined will be required from all applicants. Applicants who have not served on boardship within the last twelve months will be required to produce, in addition to the preceding testimonials, certificates of a like nature from their employers, or, if unemployed, from some respectable house-holder. No candidate will be allowed to be examined unless he has served on boardship at sea or on inland waters two years within the last six years, and six months within the last three years preceding the date of his application to be examined.

Testimonials of Foreigners.

5. The testimonials of service of Foreigners and of British seamen serving in foreign vessels, which cannot be verified by the Port Officer, must be confirmed either by the Consul of the Country to which the ship in which the candidate served belonged, or by some other recognized official authority of that country; or by the testimony of some credible person on the spot having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case must be decided on its own merits; and if the sufficiency of the proofs given appears to be at all doubtful, the point must be referred to the Government.

6. Testimonials of service of candidates must ordinarily be based on their employers' office-records.

Services claimed which cannot be verified from the employer's office-records must be authenticated by affidavits of men under whom such services have been performed as well as by an affidavit of the candidate himself.

Testimonials of service from European commanders will be accepted.

Certificates as to age.

7. Should any doubt exist as to the age of a candidate, he will be required to produce a certificate of birth or baptism.

Foreigners to know English

8. Foreigners must prove to the satisfaction of the examiners that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel.

In the case of natives of India who may not be able to speak English, their certificates shall be endorsed to the effect that they are valid only for vessels manned and officered entirely by Asiatics.

Sight and Colour Tests.

9. Any persons, including the holders of Certificates of Competency, or persons about to apply for Certificates of Competency, if desirous of being examined in colours only, must make application to the Port Officer in Form Exn. *2a*, and pay a fee of one rupee.

10. No candidate will be examined in colours until he has passed the sight tests.

This rule must be observed whether the candidate has or has not on any previous occasion passed the sight tests.

11. Candidates who fail to pass the sight test can be re-examined at intervals of three months.

12. If a candidate fails in colours, it will be open to him to be examined again on three occasions only at intervals of three months. A fresh fee must be paid on each occasion.

13. A candidate who holds a Certificate of Competency, and, who, on presenting himself for examination for a certificate of a higher grade is unable to pass the colour test will notwithstanding be permitted to proceed with the examination for the certificate of the higher grade.

14. Should he pass this examination, the following statement will be written on the face of the higher grade certificate which may be granted to him, viz.—"This officer has failed to pass the examination in colours."

15. Should he ultimately fail to pass the examination, a like statement, relating to his being colour-blind, will be made by the Port Officer on his existing certificate before it is returned to him.

16. Holders of certificates which bear the statement of their having failed to pass in colours, and who may desire to have the statement removed from their certificates, must obtain the special permission of the Local Government.

Qualifications for Certificates of Competency as Serangs.

17. *Examination in sight and colours*:—All candidates for Certificates of Competency must first be examined in sight and colours.

18. A candidate for a certificate as Serang of an inland steam-vessel must be not less than twenty-one years of age and must produce satisfactory certificates of sobriety and intelligence. He must have served four years at sea or on inland waters, the last year of which service must be as helmsman on an inland steam-vessel and shall be examined *viva voce* as to his knowledge in the following subjects:—

(1) the rules of the road;

F. A. A. COWLEY,
Secy. to the Govt of Bengal.

The 20th March 1917.

No. 23Marine.—The following draft of a notification, which, with the previous sanction of the Governor-General in Council, the Governor in Council of the Presidency of Fort William in Bengal intends to issue under section 18 of the Indian Explosives Act, 1884, is published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 21st April 1916, and any suggestions or objections with regard thereto, which are received by the undersigned before that date, will be duly considered.

III. This cancels the draft rules published for criticism under Notification No. 150Mne., dated the 8th December 1914

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION.

No. Marine.—In exercise of the powers conferred by section 5 of the Indian Explosives Act, 1884, and with the previous sanction of the Governor-General in Council, the Governor in Council of the Presidency of Fort William in Bengal is pleased to make the following revised rules to regulate the transport and importation of explosives, other than those mentioned in section 14 of the Act, in the Port of Calcutta, in supersession of the rules previously made.

These rules are supplementary to the revised rules relating to the transport and importation of explosives made by the Governor-General in Council and published under Government of India, Commerce and Industry Department, Notification No. 4013—33, dated the 6th June 1914.

Rules to regulate the transport and importation of explosives in the Port of Calcutta.

[The additions and alterations proposed to be made are shown in italics.]

N.B.—"Explosive," as defined in section 4, Act IV of 1884, and as used in these rules.—

(*a*) means gunpowder, nitro-glycerine, dynamite, gun-cotton, blasting powders, fulminate of mercury or of other metals, coloured fires, and every other substance, whether similar to those above mentioned or not, used or manufactured with a view to produce a practical effect by explosion or a pyrotechnic effect; and

(*b*) includes fog-signals, fireworks, fuzes, rockets, percussion caps, detonators, cartridges, ammunition of all descriptions and every adaptation or preparation of an explosive as above defined. It also includes any dangerous substance which may have been ordered by the Governor-General in Council, under section 17 of the Indian Explosives Act, 1884, to be deemed an explosive.

1. Except as is hereinafter provided for, no vessel shall have on board, within the limits of the port, any explosives, as defined in section 4, Act IV of 1884, except two storm or danger signals, six smaller lights of the same description, 24 blue lights, 24 rockets, *or 24 socket signals with friction tubes*, 24 detonating signals with friction tubes, or in lieu thereof 24 one-pound charges of gunpowder for use in a gun *together with a small box of friction tubes and a flask of priming powder*, 24 private signals of any Company, and 12 red lights for each boat *and life raft* carried under the statutory rules for life-saving appliances (made by the Board of Trade under section 427 of the Merchant Shipping Act, 1894), and a reasonable quantity of safety cartridges for the equipment of the vessel or for the personal use of the officers on board the ship, provided that the quantities held by them are declared in the prescribed Customs Forms A and B respectively, or in the case of foreign vessel, in the Stores List of such vessel. Detonators and their friction tubes to be stored separately. All explosives which vessels are by this rule permitted to keep on board in port shall be stored in all cases in separate, detached and completely

enclosed magazines for each description of signals. The magazines should be kept in a house on deck and stowed or ranged as far apart as possible, so that in the event of fire they can be removed or thrown overboard.

2. All inward-bound vessels carrying explosives, in excess of the quantity prescribed by rule 1, are prohibited from proceeding above Budge-Budge, and the Master of any vessel lying within the port, which shall have on board any explosives in contravention of these rules, shall be liable to a fine which may extend to the sum mentioned in clause (*a*) or clause (*b*), as the case may be, of the proviso to section 5 of the Indian Explosives Act, 1884.

3. Explosives of classes 1, 6 and 7, as laid down in the rules issued under Government of India, Commerce and Industry Department, Notification *No. 4013—33, dated the 6th June 1914*, that is to say, gunpowder, ammunition and fireworks in excess of the quantity prescribed in rules 1 and 2, shall be landed and deposited in the magazine at Moyapore.

4. For the convenience of vessels having ship's gunpowder, *ammunition and fireworks* on board, a properly constructed powder-boat will be always in attendance off the magazine for landing and shipping *these explosives*. No charge will be made for the use of the boat for landing ship's *explosives*, but the responsibility of the keeper in respect of the ship's *explosives* shall not commence until *they are* landed on the bank, and shall cease as soon as *they are* shipped on board the boat. Every precaution will be taken to insure the safety of the *explosives* while in the boat, but the landing and shipping shall be at the risk of the vessel.

5. Vessels bringing consignments of trade explosives shall be allowed the use of the magazine boat; but should passing vessels require the use of the boat to put out or take in ship's *explosives*, such vessels shall be accommodated before the boat can be used to discharge explosives brought as cargo. The landing of *trade explosives*, whether the station boats or private boats are employed, shall be at the risk and expense of the consignees of the explosives, and no liability shall be accepted for damage sustained while in course of landing or until the consignments are stored in the magazine.

6. Explosives specified in the first division, class 6 of the rules published under Government of India, Commerce and Industry Department, Notification *No. 4013—33, dated the 6th June 1914*, viz., safety cartridges, safety fuzes for blasting, railway fog-signals, and percussion caps brought as part of a general cargo and which have been placed on board the vessels while lying in dock at ports of shipment, may be brought into port and landed at the docks or jetties in accordance with the regulations prescribed in that behalf in the Port Commissioners' bye-laws.

The term "safety fuze" means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze will not communicate laterally with other like fuzes.

The expression "safety cartridges" means cartridges for small-arms of which the case can be extracted from the small-arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges. The term also includes rifle-calibre machine-gun cartridges if they are of the above description, whether they are for use with machine-guns having chambers identical with those of rifles or with machine-guns which have special chambers.

The maximum diameter at which a small-arm or machine-gun cartridge can be accepted as "safety" is one inch.

7. In order to avoid unnecessary detention, Masters of vessels requiring the use of the powder-boat shall hoist a flag at the fore-topmast head on coming in sight of the magazine, as a signal to the keeper to have the boat and coolies in attendance.

8. Masters of vessels shall mark the names of their respective vessels on the barrels and packages of ship's *explosives* previously to their being landed; if not marked, they shall not be received by the magazine boat.

9. Explosives shall not be landed within the port or at Moyapore or Diamond Harbour at any time when artificial lights are required to be used, and no explosives shall be landed, received into, or delivered from the magazine when artificial lights are required to be used.

10. The magazine-keeper shall give to the Master of any vessel landing explosives at the magazine a receipt for the number of packages, and the magazine-keeper shall be accountable to such Master for the re-delivery of such packages.

11. Before entering the limits of the port, the Master of every vessel having explosives on board shall make and sign a declaration in writing that to his knowledge and belief there is not on board any explosive exceeding the quantity prescribed in these rules.

12. A clerk shall be always in attendance in the powder-boat, and shall receive from the Master the declaration specified in the foregoing rule.

13. If any vessel shall be prevented, by stress of weather or by being in distress, from landing or depositing such explosives in excess of the quantity allowed as aforesaid, such vessel may be permitted to come up to the lower limits of the port, but shall not proceed above Matteabrooj Ghât, and the Master of such vessel shall forthwith give notice to the Harbour Master of his having such explosives on board, and shall obey the Harbour Master's directions relating to the same.

14. Masters of vessels, outward bound, who may require ship's *explosives* for their outward voyage, shall not take such *explosives* on board in any part of the river above Budge-Budge, with the exception of a quantity not exceeding that named and sanctioned in rule 1.

15. Masters of vessels, who have deposited ship's *explosives* at the magazine shall inform the Harbour Master of the date on which the vessel will pass the magazine outward bound, and on receipt of this information, orders shall be forwarded to the keeper to place the *explosives* in the boat, and send it off in such time as to avoid any detention of the outward-bound vessel. Before taking the *explosives* on board, the receipt granted by the magazine-keeper shall be given up.

16. Boats *as approved for this purpose by the Boat Surveyor to the Port Commissioners* shall be permitted to take on board at the Moyapore Magazine and bring as far as *Prinsep's* Ghât, under cover of passes to be granted by the Commissioner of Police and the Port Commissioners, 50 lbs. of trade gunpowder, the property of dealers and consignees. *For each boat the dealers shall supply an armed guard (pensioned sepoy) whom the Commissioner of Police, Calcutta, will select.*

17. Delivery of trade powder into boats at the Moyapore Magazine for conveyance to Calcutta shall only be granted upon orders issued by the Port Commissioners.

18. No boat containing powder, under the provisions of rules 16 and 17, shall be allowed to proceed above *Prinsep's* Ghât. All such powder shall be landed at *Prinsep's* Ghât, and no powder shall be landed at any other ghât, except with the special permission of the Port Commissioners.

19. No smoking, and no fire or light of any description, except the red lamps between sunset and sunrise, shall be permitted on board of any boat having explosives on board.

20. *Masters of vessels having on board compressed gunpowder for blasting purposes, and dynamite, gelignite and detonators, intended for despatch upcountry, shall make their own arrangements for the discharge of the same. These explosives may be landed at Moyapore and transported under police guard from Moyapore to the Bengal-Nagpur Railway siding at Bowreah and there loaded into Bengal-Nagpur Railway wagons for despatch to destination, provided the transport is covered by a pass to be granted by the District Magistrate of the 24-Parganas and the loading is done during day-light and no storage is allowed on shore or on boats.*

21. Masters of vessels having on board explosives belonging to the following classes, as laid down in the rules prescribed in the Notification of the Government of India, Commerce and Industry Department, *No. 4013—33, dated the 6th June 1914*, shall make their own arrangements for the discharge of the explosives:—

Class 2.—Nitrate mixture.	*Class 3.—Nitro compound.*

Explosives of the classes specified above shall not be landed at the Moyapore Magazine. They shall only be allowed to enter and pass through

the port under the supervision of the Port Police and subject to such restrictions as may, from time to time, be ordered by the Commissioner of Police and the Port Commissioners, in addition to the restrictions laid down in the rules promulgated by the Government of India, Commerce and Industry Department, Notification *No. 4013—33, dated the 6th June 1914* But they may be landed at Diamond Harbour and conveyed thence by rail to Durgapur: provided they are taken direct from the vessel to wagons; or if there be no wagons ready to receive them, arrangements are made for their safe custody after leaving the vessel. *The landing and transport of dynamite and gelignite, class 3 explosives, intended for despatch upcountry, are governed by rule 20.*

22. Boats containing explosives of the classes specified in the two foregoing rules may anchor at Diamond Harbour if it is intended to land the explosives at that place, but shall, in no case, anchor within port limits, or be made fast at any part of the river bank or alongside any vessel, stage, jetty, or pier within the limits of the port. Such boats, if allowed to enter port, shall proceed direct through the port to the place licensed by the Local Government for the landing and storage of the explosives.
